Description

Anping Chengxin Metal Mesh Co., Ltd. is located in Anping of China, the famous Wire Mesh Land. After many years' efforts, our company has developed from a factory to a well-established company engaged in production and export wire and wire mesh products. Chengxin has engineers and technicians, also advanced production machine and test equipments. Every process of wire and wire mesh making is under strict quality control. And we never stop our investment in renovating of equipment and technology. Thanks to the help and support from friends both home and abroad, we have achieved constant development, and our products enjoy good reputation from worldwide customers. We have confidence that we are able to offer our friends with even better quality products, more competitive price and more considerable service than before.
