Bilateral Meetings

- (1:00 p.m - 6:00 p.m.)

Description

MAF RODA AGROBOTIC is specialized in engineering and manufacturing turnkey grading, sorting and packaging installations for over 40 types of fresh fruit and vegetables. Working in over 60 countries brings MAF RODA a wise expertise about the various markets. Our automation, electronics and mechanics departments are attentive to the customers' needs and are eager to offer automated and ergonomic working solutions with a wide range of machines for the automated handling of boxes, pallets and bins.
